Main aim of the scheme is increase of milk production through replacement of breeding stock by way of heifer induction followed by rearing support to reduce the age at first conception in female cattle. The Director of Animal Husbandry has submitted that after midterm

appraisal of the scheme it is revealed that due to non-availability of pregnant heifers the implementation of the scheme is poor. He has requested to modify the scheme to supply of milch animals/Pregnant milch animals in addition to the pregnant heifer induction. Further the animals reared by the SC farmers suffer from mineral deficiency due to low plane of nutrition on account of poor finance status of them and hence to supply mineral mixture on 90% subsidy instead of supplying the input free of cost. The Director of Animal Husbandry therefore requested for inclusion of these sub scheme in Heifer induction programme as the Department will meet the cost within the existing BE provision from out of the savings among the approved schemes.

**Resolution:** The Nodal Agency has approved the inclusion of the following two schemes under “Heifer induction Programme” (a) Milch Animal/Pregnant Milch Animals Scheme and (b) Supply of Mineral Mixture and resolved that the Administration Department shall take further necessary action in the matter and ensure the successful grounding of the scheme within the approved B.E.
